## MESSAGE FROM NATIONAL COMMITTEE VICE-PRESIDENT

While we were still in the recovery phase after the pandemic period, the earthquakes that occurred one after another in Kahramanmaraş and affected millions of our citizens in 10 provinces caused us to be shaken as a nation.

In these earthquakes, which deeply affected our society, firstly, our losses and wounded, then hundreds of thousands of families who had to leave their homes with their children and children, and our cities that were lost... These sufferings will continue to be with us for a long time.

In this process, Akfen Holding, our group companies and subsidiaries rushed to the aid of our cities affected by the earthquake. We participated in search and rescue operations with our volunteers and distributed hot meals and provisions.

In the hundreds of tents, we set up with our own hands, we accommodated families whose houses had been destroyed and who had been left on the streets in difficult times. We gave scholarships to 3 thousand young people to complete their university education. We established 3 container cities; we distributed hot meals to 60.000 families; we saved 4 lives.

While you are already doing your best for young people in our daily lives, we are sure that you are doing even more in difficult times when these young people need us the most. We believe that the framework of the Award is the right tool to bring young people into their daily lives and integrate them into the society. In addition to social gains, we aim to guide young people with our Award Programme and help them shape their future lives.

Together with you, our esteemed volunteers, our most important goal is to deliver the Award Programme to more young people and make a difference in their lives. Without your support and effort, it is not possible to create positive changes in the lives of our young people. I would like to thank everyone once again and so glad we have you.
